### Cooperative Cattle Auction Market To Be Organized Here

45,000 Feeders Yearly Is Present Estimated Need For Glades

For some months several score cattlemen of Palm Beach county have had a committee studying the possibilities of an auction market for cattle and a outlet for beef as well as a source of supply for feeders.

Definite action has been taken and a meeting is called for Monday night at the office of Mr. P. M. at the City Hall at Belle Glade for registration of charter members of a cooperative.

Glades Livestock Market Association, the organization set up in the event which has been prepared by Attorney Thad Whidden of Lake Worth.

While the initiative in sponsoring this market is with the local cattlemen, the Palm Beach County Cattlemen's Association President John L. Evans, says "We are hoping that not only will cattlemen in our own county join the cooperative, but those of all other counties of southeast Florida."

The cattle industry of the Glades has grown so fast during the past three years that an acre of cattle and prepared pasture is available. However, informed cattlemen and Prof. Speer, Assistant County Agent, say there are approximately 15,000 acres of improved pasture in the much lands. It is proven that three beef animals per acre per year will be fattened.

Conceived as a civic celebration in the interest of county unity, the event is sponsored by the Palm Beach County Cattlemen's Association's major civic organization.

Highlight of the program will be the free meal at noon.

The committee estimates that more than 20,000 people will attend the event.

The cattle currently are at 45,000 feeders and consequently the same amount of fat cattle will be sold. Arrangements are being made to graze land, pens, chutes, etc. in the trend area.

Sites at Belle Glade, South Bay and Lake Harbor are being considered by the committee and a report will be made at the Monday night meeting about the location.

Directors will be elected Monday night and charter members registered. Attorneys and others who are 3 or more years old are invited to attend the meeting and become associated with what bids fair to be the largest auction market in the State of the Southern States, for that matter.

### Football Practice Starts For Rams 15 Boys Report

Twelve school football practice started for the Belle Glade Golden Rams last Monday afternoon with about 15 boys reported for training. Coach Cook states that about 12 more players are expected to report later in the week. Practice hours are from 8 A. M. to 9 A. M. and 3 P. M. to 6 P. M. every day and these hours will be maintained until mid-September.

Cook started the first practice with only light work and exercises. The team will then do their regular practice uniform and equipment in the middle of the month which will probably take from one to two weeks.

New equipment has been purchased for the team this year. Old uniforms will be used for practice and new jerseys and pants will be saved for regular contests.

#### Fishing Show On Tide Sides Of Lake

Fishermen on sides of Lake Okeechobee has not been much the past three months due to the low lake level. Waters that at one time were infested with ribbon grass and, what is known as cattail, digests water so low that all the underwater vegetation is out causing the fish to go to other parts of the lake for food.

With the water low and almost all of the feeders gone from this side of the lake the fish have migrated over to Observation shore near Clewiston and north Pelican Head and Beacon Point. Fishing at Clewiston has been good is only fair to the north of the islands.

With his Naval Reserve ship and its own generating plant manned by naval reservists at the Okeechobee Military Camp, we are assured of continuous contact with the outside world to receive and send weather information.

The telephone line from Okeechobee to Belle Glade is a buried cable so that constant contact with the outside world can be maintained. WSWN, in case of a reported hurricane can go on 24 hour service to keep Glades people fully informed.

Local radio stations are connected to listen to the U. S. Engineering Station at Clewiston each 30 minutes to receive reports of hurricane readings from around the lake, as well as wind directions and velocities. Contact can be maintained with Tampa, Miami, Jacksonville, and any other radio station in Florida or throughout the country.

In case of emergency there will be Florida Light and Power, the Royal Patrol, the Fire Control, fire departments, and Sheriff's Constable and State Police short-wave installations.

There should be no dearth of information concerning the approaching storm — if any — hurricanes. Buried cable is used to the bridge and from the Tortugas and back to the town of a short distance with elevated telephone circuits.

Julius Harris will act as assistant to Jack Johnson and keep a map on which the storm will show up to date data and the public will be kept fully informed.

At the First Annual Labor Day Picnic celebration of the Englewoodles last year, the committee met 15,000 souls in a little more than an hour.

The shopping program will be featured by the State's senior U. S. Senator Claude Pepper, Senator Spear L. Holland, Governor Millard F. Caldwell, and the Mayor of the City of Calimesa.

Most of the members of the State Legislature are expected to attend. Also on the program will be Congressman Dwight L. Rogers, and other Federal congressmen will be guests.

Among the prominent members of the local distinguished guests committee will greet officials from the City Commission, race of September 14th, it was found that men have qualified.

ENVY OF THE WORLD

The history of the world, since recorded time began, has been blackened at regular and frequent intervals by terrible famines. Countless millions have died miserably from hunger. And those cataclysms were not confined to long past, primitive times. In the last quarter century starvation has stalked thru China, Russia, and other nations.

Yet, in the United States, we have never had a famine. Some may say short-sighted that this is because we are blessed with an abundance of resources. But other countries, where the standard of living is abysmally low compared with ours, have great resources also. Some may think it is because we work harder. Yet in the hunger ridden nations the average man and woman work much longer hours, and perform a great deal more manual labor, than does the average American.

The basic reason for our abundance lies elsewhere. It has been in a theory of government that encourages every man to do his utmost and reap the rewards that has stimulated voluntary, individual enterprise and that, finally, has given every man the right to compete with any other in his chosen field.

We see how this system works on every hand. As a simple example, every American can walk into a store and buy all the meat he wants—something that is impossible in most other countries. Free enterprise is responsible for putting that meat in the butcher's shop, for turning out hogs and other animals into cuts that are ready for consumption. To meet the needs of the country, a great packing industry has been developed to bridge the gap between the livestock producer and our homes. It performs a vital service at a cost which is almost unbelievably small. So it goes in every field of enterprise. Free people, working in a free economy, have made the American standard of living the envy of the world.

### BLESSED EVENT

Mr. and Mrs. Louis Kirschman announced the birth of a daughter on August 21st at the Good Samaritan Hospital in West Palm Beach. She has been named Mildred Edith.

### VENTURE NEWS

(Continued on Page 4)

Under regulations which took effect of July 1, 1948, the VA will no longer pay veterans' costs such as Dancing, Barbecuing, Photography, Personality Development and others... unless the veteran wishes to take the course or can prove that he is disabled. In this case, it would direct him to an educational or employment objective.

VA made it clear, however, that the veteran who wants to marry in living by being a pilot is not barred from flight instruction at government expense. He must prove that the course he wants will eventually lead to an educational or employment objective.

With respect to single subject courses at school, which are not a part of a general education or training program, however, if an educational or employment objective... the burden of proof rests on the veteran himself. Other courses, while are well known to the VA, its regional offices are being frequently pursued for vocational or recreational purposes, must also be justified to VA by the veterans before Uncle Sam will pay the bill.

Restrictions do not apply to courses in applied music, physical education or public speaking. Those who have been discharged or released by institution of higher learning for credit, as an integral part of a course leading to an educational objective.

### Veterans Aid Available

Paralyzed veterans, entitled to Federal Aid for home specialty designed for their specific living needs, may apply to the Veterans Administration office. Public Law 702 authorizes a Federal grant up to 100%.

and dollars for use in acquiring a home. Eligible for the grants are veterans of the Peacetime Service in the armed forces since April 1932 who have a permanent total service-connected disability... due to a non-service-connected injury, resulting from disease, hereditary, and the lower part of the body.

Veterans who qualify under this law, and who wish to use VA money to plan a special home for suitable householders will receive them free of charge... upon request. Special features are incorporated in the new houses. Stamps replace the more usual steel reinforcement.

There are wider halls and doorways, as well as large and more spacious rooms. Plans call for special bathroons, fixtures and equipment, and in some cases, there are special exercising facilities. This is definitely one of the best laws ever signed for paralyzed veterans.

Letters to The News Review

Questions from veterans and their families... answers from Venus N. Lewis. Our first question was sent in by a veteran who's living on a farm. He writes, "Are there any sponsored programs underway for a veteran to receive subsistence allowances while training to a farm?"

ANSWER: Yes, several counties have VA sponsored programs for veterans farm-trainees. According to the VA, the Government Aid while training on the farm, checks with your service officer, or the VA representative when he is in your town.

QUESTION: "I'm a veteran of World War I. Is there any time limit for filing a claim for disability compensation for a disability that was caused by my service from the first World War?"

ANSWER: There is no time limit for filing a claim for disability compensation.

### SCOUT CAMP AT LAKE COBURNE GROWING

With good luck, the Lake Coburne Boy Scout Camp, which is used by local Scouts and their leaders, will be a permanent park filled with tropical trees, including palms, citrus, avocados, Jambolan plums, star apples, red apples, guavas, and Kaki apple. Many of the trees have fruits highly attractive to birds.

Since Palm Beach County has filled the low lands, the Scout

**NEWS VIEWS**

By E. D. DOUG

Friends of the Kuwai, who is a visitor from the United States, say that the Kuwai in his country are coming in so many numbers that there are strikes—deep in dividends. Kuwai is the name of the Persian Gulf, and the national emblem of the Kuwai is a falcon. There are no taxes, no parades, no wars, no strikes, no strikes are free. The more they go in the Kuwai, the more they are free. When they strike, they might be annoyed if you ask them why. In fact, on March 15, it must be a hard day to ride a camel.

Carroll McDonald is leaving Monday for Gainesville where he will enter the University of Florida for his freshman year. Carroll has received a four year football scholarship.

Our local lumbermen have started a school football team and from the first game things look pretty good. This year all points to a team that will score over 100 pounds in the line. This year we are going to give a pound of bacon like we did last year.

WHEDON DRUG STORE, especially with the help of the young citizens of Belle Glade, has been having the full support of every group in the community.

Miss William Williams is the daughter of Mrs. Milton Maxey and the late James Williams. A graduate of Belle Glade High School with the class of 1944, Miss Williams is now employed by the Southern Bell Telephone Company.

Mr. Ball is the son of C. A. Ball of Tracy, Ohio, and attended Pahokee's Belle Glade Schools.

He served with the U. S. Navy for six years, and is employed by the City with the Fire Department.

The wedding is to be on the 29th of August with final plans to be announced next week.

**RAWLS-WEDGWOOD WEDDING PLANS**

The marriage of Miss Peggy Rawls to George Wedgwood will be solemnized at 4 P. M. on September 4th at the Community Methodist Church with Rev. Jay O. Jameson of Miami officiating.

The bride's maid of honor will be Mrs. Chester Confer, the Misses Mary Elizabeth Hooker, Caroline Mary and Edith Bregger. Best man will be Richard Pike, and ushers Barnes Smith, Jewel East, and Warren Cross.

The Rev. Leonard Vandewater, and the Misses Mary Eleanor Kidder and Norma Charlotte Elaw hold the bride's parents.

Yellow double hibiscus and fern form the table floral arrangement, and vases of multi-colored flowers and roses decorated the room. Crystal candlesticks and white napkins at each end of the refreshment table with the crystal punch bowl as the centerpiece.

All friends are invited to attend the service, and the reception will be held immediately after at the Wedgewood home on the Palm Beach Road.

Young men of draft age who wish to serve with the United States Marines had better act early," according to Colonel Donald Spicer, officer in charge of recruiting in the southeastern states.

Colonel Spicer referred to the ruling made by Defense Secretary Forrestal that young men who have received their draft notices may not volunteer for military service.

"The Defense Secretary has ruled that, whenever possible, an individual will be given a chance to name the branch of service he wants," said the Colonel, "but if present voluntary enlistments keep up, the Marine Corps will not require inducements."

"The enrollment rates now are very high in the Marine Corps," continued Colonel Spicer, "but it is not true that the recruits are all filled up as has been indicated."

### REGISTRATION

(Continued from page 1) for High group of Belle Glade and South Bay, who have returned to the state since August 24th, will register at the school between the hours of 8:30 and noon, but will be required to remain at school until they have been in the state for two weeks. It will be necessary for these students to furnish their parents' names. Affidavits will be signed by the parents of these children and by two witnesses stating the date they returned to the state and designating a date two weeks later when they will be eligible to enter school.

Busses will run according to schedule on the 7th of September and all elementary children who have not been registered in the previous time will report to the school for registration and will resume school on the 8th. Those who have not been in the county for two weeks prior to the 8th will be required to furnish their own transportation and report to the principal's office at the school on September 13th.

The first regular school day for grades seven thru twelve will be Tuesday, September 7th. A large enrollment in all departments is anticipated.

Any person who finds it impossible to comply with the above regulations on dates mentioned will please apply to the principal's office for special arrangements.

### CITY TO REIMPOSE

Continued from page 1) bills amounting to \$981,188. \$864.34 being paid out of the Water Department funds and \$207.44 being paid out of the city's general funds.

W. C. Young was present on behalf of the civic organizations named in a resolution read to the Commission by the city manager. The movement was started to float bonds in the amount of \$75,000 for the purpose of constructing a city swimming pool at the cost of approximately \$60,000 and a municipal park in the colored section of the city to cost approximately \$15,000.

There was controversy over the proposed site on which the city would be built. The problems arising about the volving and floating of bonds to cover the costs.
